

# Ethical Policy

Introduction

July 23, 2020

Ethical questions are important for SmiCut AB. We strive for a high level of ethical and responsible business conduct. In this page we explain how we apply our Ethical Policy in the following subjects.

## Anti-bribery and anti-corruption

SmiCut is firmly committed to fair business practices without any form of bribery or corruption, and confirms to comply with anti-bribery laws in all countries where we operate.

In addition, we also expect the same high ethical standards from our business partners with regards to anti-bribery and anti-corruption.

## Trade Compliance

SmiCut examines well the areas of customs, sanctions and export controls. We collect and apply information to the specific country or trade situation as to comply with all the laws.

## Military Industry

SmiCut do not want to supply tools for the military industry, products that are for weapon, spare parts for weapons and similar. If you know that the tools will be used for this purpose. Please, do not order from SmiCut.
